

National Livestock Advisory System (NLAS)

Introduction

NLAS Purpose & Objectives

❖ Livestock's Importance in Bangladesh

- Livestock & poultry are major protein sources and contribute to GDP.
- Weather variables (temperature, rainfall, humidity) impact livestock production.

❖ Misconceptions & Risks

- Common Myth: Livestock are less vulnerable due to mobility.
- Reality: Floods, extreme heat, heavy rainfall, and high winds affect livestock.
- Hidden Impacts: Extreme temperature reduces milk production & affects poultry metabolism.

❖ Scientific Findings & Climate Services

- Studies show temperature & humidity impact cattle & poultry productivity.
- Poultry brooding depends on temperature thresholds.
- Need for Climate Services: Essential for minimizing livestock losses.

How to Access NLAS

NLAS Registration and Login

❖ Accessing NLAS

- Open: <https://nlas-wb.rimes.int/> or <https://nlas.dls.gov.bd/>
- Copy & paste the link in your browser
- Best viewed on recommended browsers
-  Login to NLAS

❖ Click Login (top-right corner)

- Enter registered email/mobile number
- Request OTP and past it in OTP section
- Click Verify & Sign in

❖ New User Registration

- Enter New Registered email/mobile number
- Request OTP and past it in OTP section
- Click Verify & Sign in , it will auto register new user and login
